

They are friendly, caring and professional at all times. I cannot recall one negative incident in all the years that I have been your patient. I have been very satisfied with the results of the visits.

Sharon performed most of my service and she was very attentive and concerned for my comfort. When I thought I was having a reaction to a lip cream, she removed the cream and in so doing had to remove a lot of the setup material. She never made me feel it was a problem at all.

People are friendly, work efficiently and care about my oral health.

Staff is friendly and helpful, yet professional

Dr. Fairweather is always friendly and caring as well as very professional.

I honestly think your service and staff are excellent. Sadly have been to a few dentists over the years, but I am extremely happy and will be returning for future visits. Thank you very much.

You have great service.

Each time I go to dentist I see something else that has been incorporated to help make the overall visit better.....whether it be new technology so that my teeth benefit or just new methods and improved environment to make the overall experience betterwhat I would like to see if for dr fairweather to become part of the metlife dental network so that I can benefit from lower patient cost. I verbally refer dr fairweather all the time when people are talking about dentists

Dear Dr. Fairweather, You're the best! No improvement necessary. I appreciate your patience and gentle care. Thank you, Sharon and your entire staff for all you do to make me feel comfortable.

I appreciate that my dental care is pain free and comfortable. Dr. Fairweather is excellent and understands my unfounded fears that seem real to me. Thank you! Best Regards, Maria Agro

I love the attention I get everytime I come in..which was only twice so far but being afraid of the dentist you make it super comfortable.

Professional, timely, friendly, technicologically advanced.

Super personal treatment from all.

I feel that the general attitude and professionalism of Dr. Fairweather and the staff contribute most to both a feeling of comfort and confidence.

Timely. High tech. Thorough. Advanced.

Dr. Fairweather is very knowledgeable and keeps current on dental science. I have 100% confidence in his diagnosis, methods and skill.

Besides the great ambience and fish tank, the staff are warm and very helpful. Of course, Dr. Fairweather is always on top of the latest in dental care and Maria cleaned my teeth so well that both I and my wife were truly AMAZED!!! I did not realize how dirty they had become, but the difference was really night and day.

I have recommended your service to family and friends & neighbors living in this area.

Everyone at Better Image Dentistry is so welcoming and friendly. There is always a smile and pleasant hello when I arrive.

I am and always will be a "basket case" when it comes to visits, but, that is not how I feel after each visit. I'm always treated "gently" and appreciate the care that I receive.

An efficiently run operation. I'm never left "hanging".

I liked how everyone was introduced to me, the staff made me feel at ease and comfortable.

They are all wonderful, attentive and pleasant through all aspects of your procedure.
